## THE SUN PURCHASES THE EVENING LEDGER

**The Entire Plant And Subscription of  
the Paper Go With the Sale.**

**This Gives The Sun the Best Plant and by Far the  
Largest Circulation in the City.**

### THE SALE OF PLANT IS EFFECTIVE AT ONCE

The Evening Ledger today contains the following article:

The Evening Ledger has sold its entire plant and circulation to the Evening Sun, and commencing on Monday all persons who have been subscribers to The Evening Ledger will receive The Sun instead.

The Evening Ledger has been an important factor in this city during the past seven or eight months and has built up a circulation second to none in the city, and now that The Evening Sun has purchased the entire equipment it goes to prove to the advertising public that The Evening Sun will have the largest circulation of any newspaper in the city.

The Evening Ledger has endeared itself to the people of this city by the fearless and able manner in which it has handled the news and is selling the complete plant to The Evening Sun, because The Evening Ledger believes that the owners of that publication represent more closely the wishes of all the people than any other newspaper in this city.

Only recently The Evening Sun installed a new press at an expense of over \$7,000 and now that they have purchased the Mergenthaler plant and plant in entirety of The Evening Ledger it places them in a position to give the people of this city the best newspaper that has ever been issued in Paducah.

The Evening Ledger asks that every subscriber of the publication continue with the new paper and in doing so feel that they will receive the best afternoon newspaper that has ever been issued in the city.

The reason that The Evening Ledger sells to its competitor on account of the strenuous opposition that prevails in newspaper circles in this city.

The fire originated in the Ashley saloon and spread to the Cottage saloon and then to the Fair Novelty Store. The firemen fought the conflagration for several hours and finally conquered the flames but not before a great loss had been sustained.

There is some insurance on the burned property but the loss will amount to considerably as the buildings and contents were not totally covered by policies.

In addition to the buildings burned, one hundred feet of telephone cable was burned and many telephones were rendered useless. It will require several weeks to remedy the defective telephone service. The long distance cable was not damaged and the line from Paducah to Cairo has been working all day.

## THE LAST CENSUS REPORTS NOW OUT

United States Has 4,000,000  
People More Than Before.

Many Cities Show a Great Increase  
in Population in Ten  
Years.

### AN OFFICIAL STATEMENT

Washington, April 9.—The Census Bureau has issued a bulletin which gives the estimated population of the United States for 1908, exclusive of Alaska and the insular possessions of the United States, as 79,900,389. This is an increase of 8,905,814 since the census of 1900. The population is estimated for 438 cities having 10,000 or more inhabitants in 1900.

According to these estimates New York is now a city of 3,716,189 inhabitants; Chicago is rapidly approaching the 2,000,000 mark, having 1,873,880 inhabitants; Philadelphia has 1,367,716; St. Louis has just passed and Boston has almost reached the 600,000 mark; Baltimore has 551,313; Cleveland is now a considerable distance ahead of Cincinnati, which cities have 414,950 and 332,984, respectively.

Buffalo also has considerably increased its population, being credited with 331,403 inhabitants. San Francisco and Pittsburgh are close competitors, the former having 355,019 and the latter 345,043. Detroit, Milwaukee and New Orleans have just passed 300,000, and Washington is close to that figure.

In Kentucky, Louisville is given 215,402; Covington, 44,759; Newport 29,515, and Lexington, 27,809.

An official statement accompanying the bulletin says in part:

"The Bureau of the Census has decided to make annual estimates of population based upon what is known as the arithmetical method. This rests upon the assumption that the annual increase for each year since the last census will be one-tenth of the decennial increase between the last two censuses. The country as a whole and most of the States and cities are growing with a steadily increasing per cent of increase. As this condition has obtained in the United States for the last twenty years it is likely to hold good in the immediate future."

The board adopted the plans for a concrete walk drawn by Architect A. L. Lassiter. The improvement to the grounds will cost \$600, and if a fence is built around the building, it also will cost about \$500.

### A DANDY FOR BURNS.

Dr. Bergin, Pana, Ill., writes: "I have used Ballard's Snow Liniment; always recommended it to my friends; as I am confident there is no better made. It is a dandy for burns. Those who live on farms are specially liable to many accidental cuts, burns, bruises, which heal rapidly when Ballard's Snow Liniment is applied. It should always be kept in the house for cases of emergency." 25c, 50c, \$1 bottle. Sold by DuBois, Kolb & Co., Paducah, Ky.

# The Week In Society.

**THE ELUSIVE SPRINGTIME.**  
The birds in the blossoms are singing—  
(No, no!—I mistake—I mistake)  
It's only a blizzard bell ringing,  
And here comes the snow-flake on  
flake)

Tomorrow—the picnic, my dearie:  
But what does the weather say?

"Prospect is looking quite dreary—  
Six cold waves are headed this way"

Alas! for the hopes that are human—  
They lead us to gloom by degrees;

But, "Jen," you're a sweet little  
woman:

We'll just stay at home, dear, and  
freeze.

PADUCAH AUTHORESS.

The "Castle of Louisiana," a novel written by Mrs. D. G. Murrell of this city, has just been issued by John P. Morton and Co., of Louisville. It is a southern story, as its title would indicate and has received much favorable comment. It is Mrs. Murrell's first literary venture, and her friends are much interested in its success. Her culture and her familiarity with the scene of her story, since she was born and reared in Louisiana, qualify her particularly for her work.

## SPRING DIVERSIONS DELAYED.

Despite the fact that the Easter tide has passed, spring hats and gowns still look out of season and furs and wraps are comfortable. The balmy weather refuses to appear and spring diversions are held in abeyance. It is likely however, that tennis will be inaugurated this week on the Y. M. C. A. tennis courts which are about completed, and within the next few weeks, out of door sports will be the order of the day in Paducah society.

## WEDDINGS.

Following is the account of a double wedding of which the brides are related to Dr. W. T. Graves and Mr. Eugene Graves of this city, given by the Louisville Times of Friday:

At 6 o'clock last evening an interesting double wedding was solemnized when Miss Mary Graves and Mr. Frederick Ringgold Huber, of Knoxville, Tenn., and Miss Sarah Graves and Dr. Charles Reynolds, of Covington, were married at the Fourth avenue Presbyterian church.

The date of the wedding marked the wedding anniversary of the bride's mother, Mrs. Otto Graves, whose marriage was a double one, she and an intimate friend of hers—an aunt of Miss Stella Weyer, of St. Louis, who was one of the bridesmaids at last night's wedding—having been married at the same ceremony. Mrs. Graves was also Mrs. Weyer's bridesmaid by another coincidence.

It was a white and green wedding and the bridesmaids wore charming gowns of white batiste and lace and carried garlands of similia. The two brides were dressed alike in white batiste beautifully trimmed in lace and carried bouquets of white roses. They wore the regulation tulip vails.

Mr. and Mrs. Huber left last night for Lookout Mountain and after a short visit they will go to Knoxville.

After the ceremony, which will be a quiet one, the couple will leave for St. Louis, where they will spend a short while, before going to their future home in Richmond.

## ENTERTAINMENTS.

Miss Clara Thompson entertained the Sans Souci club at cards and with a dainty luncheon Tuesday afternoon in honor of Miss Mabel Rieke, a member of the club, who was married Wednesday to Mr. John W. Scott. The card tables were in the parlor and after the game, luncheon was served from a long table in the dining room. A bride's cake occupied the center of the table with miniatue bride and groom on top, and the decorations were in white and green. White carnations were effectively used and ices were served in Carnation baskets. The place cards were two hearts tied together, bearing the initial, R. and S. in gold.

When the bridal cake was cut, the ring was drawn by Miss Hallie Missey, the thimble by Miss Myra Dubois, the dice by Miss Caroline Sowell. The guests drank the bride's health from a loving cup, which was afterward presented to her.

The tally cards were also beauties. The prize was won by Miss Caroline Sowell, and presented to the guest of honor. The guests were: Madames David Sanders, Hughes McKnight, Harris Rankin, Misses Carline Sowell, Huttle Terrell, Minnie Terrell, Marjorie Crumbaugh, Hallie Hisey, Florence Yetzer, Lillian Rudy, Margaret Park, Ruth Weil, Angie Thomas, Myra Dobols, Mabel Rieke, Faith Langstaff, Ethel Morrow.

## DISHONEST POLITICS REBUKED

Budding in Missouri has apparently had its effect. The ignominious bribery of St. Louis Democrats, the infamous Nesbit law to disfranchise Republicans, and the Democratic outrages at the polls which provoked a remonstrance from Missouri ministers as well as a St. Louis grand jury, eleven of whom were Democrats, have conspired to disclose to the honest people their peril in other states as well as in Missouri, and as a result the Republicans show great gains in the recent municipal elections.

The Globe-Democrat says:

"The numerous municipal elections throughout the state last Tuesday showed important Republican gains. Foremost among the tests of strength was that at Kansas City, The Republicans won it against the strongest combination the machine could put up."

Kansas City went Democratic in the fall of 1903 by 4,087 majority. The Republican gain in the city is over 5,000, and in the face of a state election board, a state police board and the city machine of Mayor Reed. All the state and city patronage was on the Democratic side, in addition to which Reed's race for Governor was made in behalf of the Democratic ticket. In St. Joseph, another state board stronghold, Democratic in 1902 by 1,048, the Republicans elected a large part of their ticket. In Joplin, which was Democratic in 1902, the Republicans elected a majority of councilmen. In Jefferson City in spite of the heavy machine vote, the Republicans elected half the ticket. Republicans overturned old Democratic majorities in a number of towns and in others largely cut down the usual margin. Democrats, to their surprise lost such towns as Clinton, Webb City and Windsor. The Republican majority in Carthage was the largest ever given a candidate for mayor. It was a fine day's work throughout the state and promised well for the big battle in November. Not for thirty years have Republican prospects in Missouri been as good as now."

City officials have begun to express doubts as to whether there is money enough this year to extend the sewerage system out Broadway to the schools, and open two streets desired opened by the Board of Education. They are of course only paving the way to a refusal when the school com-

mittees come before them.

Probably it wouldn't be a bad idea to feed the Igorrotes to the dogs, as the dogs can't be fed to the Igorrotes. Humanity might not be any worse off, but think of the poor dogs.

#### SUPPORTED HIM

#### FOOD THAT SAVED WHEN EVERYTHING ELSE FAILED.

The food route is a safe and very sure road back to health.

"For six years I was a serious sufferer from indigestion and general stomach trouble, from the improperly cooked food in boarding houses and restaurants of which I was a victim.

"During three of the six years I was so bad off nervous prostration set in and I sought relief of a specialist without success. I had gotten so that I could eat almost nothing and was steadily losing flesh at the rate of about 3 pounds a month.

"Many different foods and preparations were recommended for a trial by as many different doctors, without success and I had become indifferent to all food stuffs.

"Some months after seeing your ad in the daily papers about the scientifically prepared food Grape Nuts and its good qualities, and being driven almost to despair over my plight, I reluctantly resolved to give Grape Nuts a trial as a last resort. And I thank God that I did. From my first meal of Grape Nuts I feel a great change for the better; the knot that arose in the chest after meals disappeared, the stomach ceased its uneasiness and gradually the nervousness disappeared. For about a year I ate Grape Nuts and cream three times a day and on that one I have regained 54 pounds of lost weight and weigh 5 pounds more than I ever did and now do not find any trouble in using my old time relishes with my Grape Nuts.

"I expect to be married soon and I do not expect Grape Nuts to be eliminated from my bill of fare as long as I live. If my testimony will help some poor mortal, place my letter conspicuously where it can be read. I will gladly answer letters." Name given by Postum Co., Battle Creek, Mich.

"Grape Nuts contains all the constituents of a complete food and in a highly assimilable state," says the "London Lancet."

#### WORK IS STOPPED ON THIRD STREET

Contractor and City Engineer Disagree as to Contract.

Decision Will Have to Be Made by Board of Public Works on the Question.

INVOLVES SEVERAL HUNDRED DOLLARS.

There has been no work on South Third street between Broadway and Kentucky avenue today, although there is both gravel and sand on the ground. The reason is that the city engineer and Contractor Terrell disagree in regard to an important matter.

The excavations have all been made for the concrete foundations, and the street car company is waiting for it to be laid so it can place in its tracks. Contractor Terrell yesterday announced that his contract called for only a certain amount of concrete underneath the ties, while City Engineer L. A. Washington claims that the contract requires him to have concrete both under the ties and around them. Contractor Terrell claims that he is entitled to place dirt between the ties, and that if the city forces him to place concrete instead, he is entitled to extra pay.

This city engineer Washington denies. He says the city will not allow anything extra for the work, as it is specified in the contract.

What will be done is not known.

The extra cost to the city, should the city agree to allow extra pay for the concrete, would be about \$250 to the block, it is estimated, increasing the cost to the property owners of the paying to be done by Mr. Terrell, about \$1,250 on the entire contract.

It is claimed by some of the city officials that the claim for extras is absurd. That the contractors who paved Broadway were not allowed anything extra, and that the contractors who bid on the street paving now being done had two prices, one price for streets on which there were no street car tracks, and those on which there were street car tracks, showing conclusively that the differences in price resulted from the additional requirements in regard to excavations and concrete on blocks where there are car tracks, and that the contractor expected to do it as a part of the contract.

It is not known what will be done. City Engineer Washington said today that he had done all he could do. He and Contractor Terrell met and it was decided to refer the question to the Board of Public works, which will meet this afternoon to decide the matter.

PRES. ROOSEVELT GIVES GOOD ADVICE

The United States Press Should Not Offend its Friends.

Also pays His Respects to Some Politicians—Big Meeting at Washington.

AN EXCELLENT SPEECH

Washington, April 9.—A representative and distinguished company attended the dinner of the Periodical Publishers' Association of America, given at the new Willard hotel. President Roosevelt was there, and was the first speaker.

The Publishers' Association came to Washington from New York on a special train, bringing with them their out-of-town guests.

When President Roosevelt entered the hall he was given an ovation, the entire company rising and cheering him repeatedly. Toastmaster Mable introduced him as "the best known author in America today, the author and illustrator of American ideals." After a few introductory compliments in which he termed the publishers "the governing class" and urging restraint, the President said:

"I wish not merely to welcome you, but to say that I trust every man of you feels the weight of the responsibility that rests upon him. The man who writes, the man, who, month in and month out, week in and week out, day in and day out, furnishes the material which is to shape the thoughts of our people, is essentially the man who, more than any other, determines the character of the people and the kind of government this people shall possess."

"I believe in the future of this people. I believe in the growth and greatness of this country, because I believe that you, and those like you, approach their tasks in their proper spirit—not always, but as a rule (laughter); and, gentlemen, it seems to be that because of the very fact that we are so confident in the greatness of our country and our country's future, we should beware of any undue levity or any spirit of mere boastfulness. International courtesy is a good thing, and national courtesy is quite as good a thing."

If there is any one quality which should be depreciated in the public man and in the public writer alike, it is the use of language which tends to produce irritation among nations with whom we should be friendly terms.

"Nations are now brought much nearer together than they formerly were. Steam, electricity, the spread of the press, in all countries these factors have brought the people closer together. You can rest assured that no man and no nation ever thinks the better of us because we adopt toward him feelings which he should resent if they were adopted toward us."

We have a very large field in warning against evil at home. When all is as it ought to be in nation and state and municipality here at home, we can then talk about reforming the rest of mankind. Let us begin at home."

JUDGE LIGGETT GETS PERMISSION TO MAKE IT PUBLIC.

Judge Thomas Liggett has received a rather unique letter, says the Metropolis Herald. It comes from Coldwater, Ky., and releases him from a secret of several months standing.

The letter states that on December 26, 1903 the judge secretly united in marriage Charles Hughes and Ruth Cochran, both of Coldwater, Ky., and was requested to keep it from the public at the time. As there is now no cause for further secrecy, he was to consider himself released after receipt of the communication.

DON'T ROCK THE BABY.

Baby rocking is forbidden nowadays by many physicians, because, so they say, it is liable to make children stupid. But it is not alone rocking in the cradle that is objectionable; rocking an infant in the arms is just about as bad.

Doctor Manaceine, the famous Russian authority on sleep phenomena says that rocking is an artificial method of inducing slumber. The process fatigues consciousness by a series of monotonous sensations, and incidentally deprives the brain of its blood supply. Absence of blood from the brain makes sleep. In Germany they have a proverbial remark about dull people. "He has been rocked into stupidity," they say.

Though insomnia is distressing and very bad for health, many people sleep too much. Too much sleep is harmful, and even a new-born infant ought not to be allowed to spend all its time in slumber. Between one and two years of age it should sleep sixteen to eighteen hours sleep from three to four years it requires fourteen to sixteen hours; from four to six years it ought to have thirteen to fifteen hours; from six to nine years it should have ten to twelve hours, and from nine to thirteen years the proper allowance of sleep is eight to ten hours.

After the completion of growth, the sleep allowance can be brought down safely to six or eight hours. All methods of putting children to sleep artificially to be forbidden, including monotonous lullabies. It is undesirable either to interrupt or to prolong artificially the slumber of infants and young folks.

During the first five or six weeks of its life the baby ought to be awake two hours in every day, and the waking period should be gradually increased.

As for the practice of rocking, Doctor Manaceine has found by experiment that swinging the body for only fifteen minutes produces in healthy adults a lowering in temperature of from one to two and one-half degrees Fahrenheit, with more or less pronounced brain anaemia (bloodlessness) and pain at the heart.

In old age the need of sleep may be the same as with very young persons.

But too much sleep is harmful to the aged, mentally, says Doctor Manaceine. They ought not to sleep more than ten or twelve hours, unless extremely feeble.

#### SUFFERED ALL HER LIFE.

Miss Emma Mellwain Couldn't Find No Relief Until She Took Shoffner's Sure Cure.

Covington, Tenn., March 27, 1901.  
Mr. M. L. Shoffner,  
Shoffner-Hayes Med. Co.

To give you a full description how I suffered from indigestion would make a book when written out. Will tell you as near as I can, in as few words as possible. I have suffered with Indigestion for years, in fact, nearly all my life, but did not know it, until four years past, and my physician told me. He put me on malted milk and a tonic which did me no good, and I lived on the milk nine months without missing a meal. I was almost starved and commenced to get very thin. Then thought it would finally kill me. Up to November 1900, I suffered fearfully, and sometimes I thought every meal would be the last one. It was so weak that I could walk but a few steps without resting, and vomited day and night, was so badly swollen it was painful to move. My limbs and back hurt so I couldn't rest day or night. I am sure nobody ever suffered more than I did with indigestion. I had heard of your medicine, Shoffner's Sure Cure, but of course had no faith in it like all others, but in November I decided to try it. I commenced to try it on Friday at dinner and by Sunday dinner had taken six doses, and went down to dinner and ate just what I wanted of everything on the table, and it didn't hurt me at all. I have taken four bottles and am stronger and feel better than I have in years. I tell everybody to take your medicine and advertise it all over. You can use what you please of this letter, and I sincerely hope it will help you sell your medicine. I can truthfully say it is fine for indigestion. I hope God may spare you to live and make this medicine always. With best wishes all along through life for you.

### Two Men Hurt in Local Shops Yesterday.

F. M. Muller Resigns in Yard Office to Go to Louisville.

J. H. Clark, a car repairman employed by the local I. C. met with an accident yesterday afternoon while working with a bad order car. He was putting in a draw head when it slipped and fell on his left hand.

The member was badly mashed and one finger in particular was badly injured.

Mr. F. M. Miller, of the clerical force in the local I. C. yard office, has resigned to go to Louisville and work in the general yard offices in that city. He will probably be succeeded here by Douglas Wilhoit or Berne Morris.

Hemp Rice, colored, employed in the local I. C. round house, had a heavy piece of iron fall on his right foot last night, and the member was badly mashed. The injury was dressed at the local I. C. hospital.

An Illinois Central engine pulling the Cairo and Jackson passenger train blew out a cylinder head between Sharon and Greenfield but no one was hurt.

Train Master Henry Schenck of the Paducah district of the I. C., has gone to Evansville on business.

THE STUMP WAS UNCOVERED BY WORKMEN YESTERDAY AFTERNOON.

The stump of a white poplar tree, said to have been a flagstaff during the civil war when the First Baptist church was used as a Union hospital, was uncovered yesterday afternoon near Fifth and Jefferson streets by workmen who were excavating for the brick streets.

The flagstaff was evidently a very tall one, but some of the oldest citizens do not remember it at all. The wood is in a good state of preservation, and the stump will be left where it is.

On Monday, April 11, The Seward Show will open their week's engagement at the Kentucky by presenting "Down in Illinois." This company

is the only successful and practical supported mantle in the world; is a new production and will give from 90 to 100 candle power. It being a well-known fact that all vibration is vertical these mantles can be used where all others fail. They have no equal for lighting dance halls, bowling alleys, factories and machine shops. Can be used on portable stands, gasoline lamps and other appliances. Try one.

### OLD FLAGSTAFF

Mr. Chambers brought down the house in his arril song, and his is one of the clearest, most bell-like bass voices ever heard here.

The chorus was well trained, and consists of good voices and pretty girls. Mr. Witte, who has several relatives in Paducah, is one of the leaders in the chorus, and his strong lyric tenor can always be heard above all the others, and adds greatly to the harmony of the choruses.

The flagstaff was evidently a very tall one, but some of the oldest citizens do not remember it at all. The wood is in a good state of preservation, and the stump will be left where it is.

Captain Bob Owen has brought over from the island 600 bags of corn. Captain Owen is able every year, almost, to run his ferryboat up to the cribs during the high water and load on the corn and is thus saved the trouble and expense of hauling it to the river.

No much is being heard now about substituting white laborers on steamboats. During past years of steamboating no one but the negro has ever been found who could do the work on steamboats, stand for the abuse and maltreatment of brutal masters and be exposed to all kinds of weather. Every once and awhile there is a spasmodic attempt to dislodge the negro, but he is soon found again in his accustomed place. The negro is indispensable on a steamboat and nobody knows it better than the negro himself.

The Memphis Commercial Appeal says: "A commodity that is playing quite an item in the traffic of the steamers plying below Memphis is fish. Nearly every boat brings in from 10 to 20 boxes, and the clerks declare that the Memphis markets take the lot with avidity and ask for more. In fact," said a clerk of the Kate Adams, "if we should bring up three times as much as we do the market would not be glutted. The industry is not developing along the river at anything like what the demand requires; yet fish could be secured in abundance and it is only the poverty of fishermen or the inadequacy of the processors of those engaged in the business that prevents a far larger supply than is being received at present."

### BIG EXCURSION

A LARGE NUMBER FROM CHICAGO TO GO UP TENNESSEE RIVER.

The party will arrive in St. Louis on Saturday, April 23, and no one embarks on the Tennessee river boat for the trip to Waterloo. It is expected that there will be seventy or more people in the crowd.

Savannah, Ga.—Federal Judge Edward Speer sentenced Harry Olsen to five years' imprisonment and to pay a fine of \$6,000 for shanghaiing and kidnaping Mose Smallwood, a negro.
